

Naplisitie™, LLC

E-Commerce Product Compliance & Legal Framework Catalog

Section 1: Core Corporate Compliance (Global Website Notice)

Cottage Food Law & Local Compliance Notice: Products sold by Naplisitie™, LLC are cultivated and packaged in accordance with local cottage food regulations or small-farm raw agricultural exemptions. Because cottage food laws vary by jurisdiction, online ordering is strictly limited to direct-to-consumer local delivery and face-to-face pickup within our permitted geographic zone. These products are home-produced, cut above the soil line, and are not subject to routine state health department inspections required for commercial food facilities. Our operations are directly overseen by a ServSafe Certified food safety professional to ensure the highest sanitary standards.

Section 2: Individual Crop Legal Disclosures

1. Organic Yellow Popcorn Microgreens

- **Storage & Handling:** Keep refrigerated between 34°F and 38°F in complete darkness; light exposure turns the shoots green and alters the flavor profile.
- **Allergen & Food Safety:** Raw, unpasteurized product grown in a controlled agricultural facility; wash gently with cold water before consuming.
- **FDA Disclaimer:** Nutritional values have not been evaluated by the FDA; this fresh produce is not intended to diagnose, treat, cure, or prevent any disease.

2. Organic Rambo Radish Microgreens

- **Storage & Handling:** Keep refrigerated between 34°F and 38°F in original ventilation packaging; consume within 5 to 7 days of harvest for optimal crispness.
- **Allergen & Food Safety:** Contains natural glucosinolates causing a sharp, intense peppery flavor; wash gently with cold water before consuming.
- **FDA Disclaimer:** Nutritional values have not been evaluated by the FDA; this fresh produce is not intended to diagnose, treat, cure, or prevent any disease.

3. Organic Spicy Oriental Mustard Microgreens

- **Storage & Handling:** Keep refrigerated between 34°F and 38°F in original ventilation packaging; consume within 5 to 7 days of harvest for optimal crispness.
- **Allergen & Food Safety:** Contains mustard (*Brassica juncea*), a known allergen; possesses natural wasabi-like heat; wash gently with cold water before consuming.
- **FDA Disclaimer:** Nutritional values have not been evaluated by the FDA; this fresh produce is not intended to diagnose, treat, cure, or prevent any disease.

4. Organic Hulless Barley Sprouts

- **Storage & Handling:** Keep refrigerated between 34°F and 38°F in original ventilation packaging; consume within 5 to 7 days of harvest for optimal crispness.

- **Allergen & Food Safety:** Harvested from barley grains and contains gluten; individuals with celiac disease or gluten allergies should avoid consumption; wash gently before use.
- **FDA Disclaimer:** Nutritional values have not been evaluated by the FDA; this fresh produce is not intended to diagnose, treat, cure, or prevent any disease.

5. Organic Dun Pea Microgreens

- **Storage & Handling:** Keep refrigerated between 34°F and 38°F in original ventilation packaging; consume within 5 to 7 days of harvest for optimal crispness.
- **Allergen & Food Safety:** Raw, unpasteurized product grown in a controlled agricultural facility; wash gently with cold water before consuming.
- **FDA Disclaimer:** Nutritional values have not been evaluated by the FDA; this fresh produce is not intended to diagnose, treat, cure, or prevent any disease.

6. Organic Afila Tendril Pea Microgreens

- **Storage & Handling:** Keep refrigerated between 34°F and 38°F in original ventilation packaging; consume within 5 to 7 days of harvest for optimal crispness.
- **Allergen & Food Safety:** Produces curly, fibrous tendrils; chew thoroughly to prevent potential choking hazards, especially when serving young children; wash gently before consuming.
- **FDA Disclaimer:** Nutritional values have not been evaluated by the FDA; this fresh produce is not intended to diagnose, treat, cure, or prevent any disease.

Global Website Footer Notice (Universal Display)

"All microgreens sold by Naplisitie™, LLC are raw, unpasteurized agricultural commodities. While our processes are managed under strict ServSafe Certified sanitary standards, raw produce carries an inherent risk of foodborne illness if improperly stored. Wash all produce gently before consumption. Naplisitie™, LLC does not provide medical or dietary advice; consult a physician for health-specific concerns."
